Letter of recommendation

BN Consult and Nobile-5 (parent companies of BePart Consulting) have provided support services for EEPro GmbH since the beginning of our operations in Bulgaria in 2011.
BN Consult was our exclusive adviser for EEPro GmbH for sourcing and acquisition of project companies in Bulgaria. We have been in contact with a few consulting firms in Bulgaria since our first visit in 2008.
They kept us informed about the developments in the renewable energy market in the country and when we decided to enter the market in 2011 we employed their services. Their team worked tirelessly during the due-diligence, acquisition and post-deal advisory process contributed a lot to the 5 MW "Karlovo" project.
BN Consult was instrumental in negotiating on our behalf and was successful in achieving very favorable deal terms for us.
Their appreciated advice as well as their support in dealing with local business partners, authorities and grid operator speeded things up a lot and made this project a big success for us.
We may truly recommend them as capable and reliable business consultants in the field of renewable energies in Bulgaria.
Nobile-5 is the firm we have entrusted with all our Bulgarian accounting needs.
Their team has provided us with timely and correct services.
Especially valuable to us was their VAT tax advice during the acquisition and construction of our photovoltaic plant.

If you need any information about EEPro's cooperation with BN Consult and Nobile-5, please don't hesitate to contact me at jan.kiermaier@eepro.de

Best Regards,

Jan Kiermaier
